

## MTI: The Complete Industry-Leading Experience

By Ryan Kunz

MTI was founded by Jeff Baker in 1999 and has become an industry leader. Always looking to the future, MTI is committed to continually producing high-quality and competitively-priced products while remaining dedicated to customers, associates, and the community.

Buy an industry-leading MTI 527, 450 or 450W podiatry chair and choose between a FREE SG Series stool (with or without a backrest) or a FREE Clarus 4™ LED exam light with a caster base or floor stand (\$430 value). Buy an MTI 526 podiatry chair and receive a FREE SG Series stool.

lift, back, and tilt functions.

With the MTI 526 Dual Power Pedestal Base podiatry chair, your patients can get comfortable with a full 24" (61 cm) width, and a low ADA-compliant 19" (48.3 cm) entry height provides easy patient entry. The dual-power MTI 526 model is perfect for those podiatrists who sit rather than stand or who desire an economical alternative to the power base models.

The 450 Quad-Power Chair is technologically advanced to provide healthcare

workers and patients with increased safety and strength in patient care. Four synchronous power motors provide superior technology for tilt, back, and foot functions with an industry-leading 650 lbs. (295 kg) rated lift function capacity.

MTI's cabinets also lead the industry. The MTC-1 and MTC-2 Mobile MTI also offer hand-and foot-operated pneumatic seating, such as the SG Series hand-operated pneumatic chair, EG Series hand-operated pneumatic chair, FG Series foot-operated pneumatic chair, HY Series foot-operated hydraulic chair.

Treatment cabinets are 33.5" (85.1 cm) high and 24" (61 cm) wide. The MTC-1 and MTCDV-2 are 33.5" (85.1 cm) high and 24" (61 cm) wide mobile treatment cabinets with five drawers and a 4" (10.2 cm) backwall. The MTCDV-2 includes DV-1 Dust Vac™ for deburring. Both cabinets feature European construction and styling, soft curves with premium materials, and contemporary ergonomic engineering.

**The dual-power MTI 526 is perfect for DPM's who sit rather than stand or who desire an economical alternative to the power base models.**

The 527P Tri Power podiatry chair provides comfort to your patients with a full 24" (61 cm) width in addition to a low ADA-compliant 19" (48.3 cm) entry height. Positions from upright, contour, flat, and trendelenburg are easily attained with the chair's power
