

Picking the Perfect Podiatry Chair

By James Larson

Since 1999, MTI has manufactured premier podiatry chairs, cabinets, LED lights, stools, side chairs, dust vacs and leg wrap supports. Each product is engineered to deliver the quality healthcare professionals expect and the comfort patients deserve. Below are just a few choices MTI can offer your hospital, clinic or physician office:

526 Podiatry Chair

The 526 Dual Power Chair is our most affordable podiatry chair. The 526 offers: DC Power lift & back, 19" low-entry height, 36" max footrest height, 650lb capacity, removable floating arms, debris tray, 24" wide seamless removable upholstery, 12" foot extension, foot control and all-steel frame.

527 Podiatry Chair

The 527 Tri-Power Chair is our most popular contour chair. The 527 offers DC Power lift/back/tilt, optional 2 program positions, 19" low-entry height, 19.7" vertical travel, 650lb capacity, removable floating arms, debris tray, 24" wide seamless removable upholstery, 12" foot extension, foot control and all-steel frame.

527W Bariatric Chair

The 527W Tri-Power Chair is our most popular bariatric chair. The 527W offers DC Power lift/back/tilt, optional 2 program positions, 19" low-entry height, 19.7" vertical travel, 850lb capacity, removable floating arms, debris tray, 30" wide seamless removable upholstery, 12" foot extension, foot control and all-steel frame.

530 Exam Chair

The 530 Quad-Power Chair is our most affordable knee-break chair. The 530 offers DC Power lift/back/tilt/foot, 4 program positions, 21.5" entry height, 16" vertical travel, 650lb capacity, non-articulating headrest w/6" extension, 24" wide seamless removable upholstery, no foot extension, foot control and all-steel frame.

450 Exam Chair

The 450 Quad-Power Chair is our premier podiatry chair. The 450 offers DC Power lift/back/tilt/foot, 4 program positions, 19 or 21" low-entry height, 11 or 16" vertical travel, 650lb capacity, articulating headrest w/6" extension, 24" wide seamless removable upholstery, 9.5" foot extension, foot control and all-steel frame. Additional accessories include: floating arms, debris tray, vision block and leg wrap support.

450W Bariatric Table

The 450W Quad-Power Chair is our top-of-the-line bariatric chair. The 450W offers DC Power lift/back/tilt/foot, 4 program positions, 19 or 21" low-entry height, 11 or 16" vertical travel, 850lb capacity, articulating headrest w/6" extension, 30" wide seamless removable upholstery, 9.5" foot extension, foot control, all-steel frame and all the 450 accessories.
